### LOGISTICIAN

#### Introduction

Conclusion

I'd be more frightened by not using whatever abilities I'd been given. I'd be more frightened by procrastination and laziness.

DENZEL WASHINGTON

Logisticians pride themselves on their integrity. People with this personality type mean what they say, and when they commit to doing something, they make sure to follow through.

This personality type makes up a good portion of the overall population, and while Logisticians may not be particularly flashy or attention-seeking, they do more than their share to keep society on a sturdy, stable foundation. In their families and their communities, Logisticians often earn respect for their reliability, their practicality, and their ability to stay grounded and logical, even in the most stressful situations.

In a world where many people shirk their responsibilities or say what they think others want to hear, Logisticians stand out as dedicated, responsible, and honest.

The core of Logisticians' self-respect comes from a sense of personal integrity. People with this personality type believe that there is a right way to proceed in any situation – and that anyone who pretends otherwise is probably trying to bend the rules to suit their own purposes. Logisticians have a deep respect for structure and tradition, and they are often drawn to organizations, workplaces, and educational settings that offer clear hierarchies and expectations.

People with the Logician personality type rarely hesitate to take responsibility for their actions and choices. Generally speaking, they are quick to own up to their own mistakes, admitting the truth even if it doesn't make them look good.
